Guitar and Video Games

Sunny Day Real Estate

how is it you feel?
I remember you at the top of my room
all these things we wondered how to hide
see how it works when
all the day long in a bottle of mud
all these fears we wondered how to hide our love

how is it you feel when you run?
ships won't come in in a bottle of mud
all this time looking for love and
you want to find peace
but you find me

mandrary fields where we run
see how it works with a bottle of rum
all this time hiding from death
and we want to be strong
but we find the true story
a tale
writing itself as we sail
a story
a tale
writing itself as we wail
oh no

never again my dear
shall we come dancing here
we'll play guitar and video games

what if we refused to follow the rules of fashion?
tell me something you'd tell a fool
ways to refuse to follow the rules of fashion

how is it you feel when?
remember you in the top of my room
all these things remade me and caused
to be something grand

never again shall we
come dancing in the sea

we'll play guitar for a new (2x)
we'll play guitar and video games
