Impressed By Me

Sahara Hotnights

Clear all my systems
You shout like the bitter old man
One handsome mister
Presidents, preachers, we all do wrongA celebration
To those who always let things pass
I will support you and what of your sorrow and pain
'Cause I got it beforeYou're making me hang my head so low
You should be impressed by me
All the things that I've done and see how I try
I want to drown in your flattery
You're making me hold my head so lowTo all my brothers
Annoying alarm clock wants to wake us up
And don't you hit me
A drunk to spy on till I've gone too farA celebration
To those who will let things go wrong
I will support you and what of your sorrow and pain
'Cause I got it beforeYou're making me hang my head so low
You should be impressed by me
All the things that I've done and see how I try
I want to drown in your flattery
You're making me hold my head so lowAnd my knees are already aching
Shaking like never before
And I think that you can do better
C'mon, do I look like a fool?You're making me hang my head so low
You should be impressed by me
All the things that I've done and see how I try
I want to drown in your flatteryYou're making me hang my head so low
You should be impressed by me
All the things that I've done and see how I try
I want to drown in your flattery
You're making me hold my head so low
