Smile

Smith Westerns

I should've realized
Life is such a joke
It makes me wanna choke
All of my time should've been
In the end
With youLove is a waste of time but the sun still shines
And it shines for you
Love is a waste of time but the sun still shines
And it shines for youI never knew
What this world could do
It turns us into fools
I heard her say all the things
But it never meant what you want
With youLove is a waste of time but the sun still shines
And it shines for you
Love is a waste of time but the sun still shines
And it shines for you
