

Sparks

Alex Clare

Fell apart,Â it all fell apart
Except for this pieceÂ you left in my heart
And I hang on to it
EverydayThere's a beast in me
He's fighting the man
The man who's tryin' to do good,Â tryin' to understand
That we can do his best to
Bring you back downAnd we're just chasing sparks
We're just chasing those ancient sparksSaid come to the garden
My sister, my wife
And I'll give you the finest things of your life
And you can get lost in the goodness of meThings got in the way
The way we understood
We failed to do the things that we should
Now we're strugglin' everydayAnd we're just chasing sparks
We're just chasing those ancient sparks
We're just chasing sparksGive us so much
Of the things we must earn
Gonna hold on to this as long as I can
Things we can teach them but
So much more we can learn
Gonna hold on to this long as I can
We need to fall apart
Just to make our hearts yearnSometimes I fall apart
(Sometimes I fall apart)
(Sometimes I fall apart)Sometimes I fall apart
(Sometimes I fall apart)And we're just chasing sparks
We're just chasing those ancient sparks
We're just chasing sparks
We're just chasing sparksWe're just chasing those ancient sparks
