

If You Let Me Go (DJ Lukas Wolf Remix)

Salt Ashes

If You Let Me Go by Salt Ashes[Verse]
Blocked in and out of timeHands gripped I analyse
Left me on broken tiles
We can make it we can make it
Mouth wide you're out the door
Bruises they hurt before
Discounting every law
We can make it we can make it right[PreChorus]
And you know and you know and you know that you wanna try
Oh it won't be enough to sit up and create a lie
Cos it won't be lost
We won't be lost.[Chorus]
You don't need to rescue me, rescue me
If you let me go
You don't need to rescue me, rescue me
Cos my blood is stone[Verse]
Breathe out, reach in to see
Doubt kills it's on to me
Leaving identities
We can make it, we can make it
Lay out my heart and bones
I have no more to show
Dropped it, my guard it thrown
We can make it, We can make it right[PreChorus]
[Chorus][Bridge]
Do I get another try
Or would you really leave
Don't give it up
I'll raise this baring light
With it all to see
Don't give it up[Verse]
I don't wanna fight you baby
I don't wanna flight no more
Now it's all on show baby
Just my heart and bones[Chorus]Cos my blood is stone x 2
