

Midnight Highway

Accept

Out I started, late tonight
Blinded by the light
Strangest feelin' I have known
Don't know what's wrong or right See the people, clubs and bars
Streetlife passin' by, yeah
Screamin' engine, burnin' gas
I'm on overdrive Danger, danger, save your soul
The finger's writin' on the wall
Where you are the angels are blind Midnight and I cruise along the highway
Midnight and I'm all right on the highway Midnight sky is bright and clear
New moon on the right
All at once, risin' haze
The freeway is my life I'm on a high, spacin' out
Where I'm goin' I don't care
Can't you see, this is me
I'm an indestructible boy Danger, danger, save your soul
The finger's writin' on the wall
Where you are the angels are blind Midnight and I cruise along the highway
Midnight and I'm all right on the highway
I'm all right Midnight and I cruise along the highway
Midnight and I'm all right on the highway
Midnight and I cruise along the highway
Midnight, on a never ending highway
