Nothing Looks The Same In The Light

Wham!

I watch you breathe, I cannot sleep
I touch your hair, I kiss your skin
And hope the morning sun won't wake you too soon
For when you wake and look at me
You never know, you just might see
Another boy who crept into your room
Take your time, that's what you told me
Take your time
But I fell head first and I just don't know what to do
Nothing looks the same in the light
Only a fool like me would take to heart
The things you said you meant last night
Nothing looks the same in the light
I'll keep my feet firm on the ground
Nothing looks the same in the light
There's a danger in a stranger
With a warm hand and then a kiss so right
Nothing looks the same in the light
It's been a pleasure, see you around
I watch the sun upon the sheets
I hear a car out on the street
And gently pull you close, it's over too soon
What can I do but wait and see
Hold on to you, please stay with me
Where am I now, your love, or a fool
Please be kind
Don't change your mind
Because you're the first and I want to stay here with you

Nothing looks the same in the light
Only a fool like me would take to heart
The things you said you meant last night
Nothing looks the same in the light
I'll keep my feet firm on the ground
Nothing looks the same in the light
There's a danger in a stranger
With a warm hand and then a kiss so right
Nothing looks the same in the light
It's been a pleasure, see you around

Please be kind
Don't change your mind
Because you're the first and I want to stay here with you
Nothing looks the same in the light
Only a fool like me would take to heart
The things you said you meant last night
Nothing looks the same in the light
I'll keep my feet firm on the ground
Nothing looks the same in the light
There's a danger in a stranger
With a warm hand and then a kiss so right
Nothing looks the same in the light
It's been a pleasure, see you around
Nothing looks the same in the light
Only a fool like me would take to heart
The things you said you meant last night
Nothing looks the same in the light
I'll keep my feet firm on the ground
Nothing looks the same in the light
