

Lonely Town

[Stan Ridgway](#)

A town's a lonely town
When you pass through
And there is no one waiting there for you
Then it's a lonely town You wander up and down
The crowds rush by
A million faces pass before your eyes
Still it's a lonely town Unless there's love
A love that's shining like a harbor light
You're lost in the night Unless there's love
The world's an empty place
And every town's a lonely town
