

# Glitter And Grease

## Lady Gaga

Rub that glitter and grease around  
Rub that glitter and grease around  
Rub that glitter and grease around  
Grease around

Rub that glitter and grease around  
Rub that glitter and grease around  
Rub that glitter and grease around  
Grease around

Hot shit, in Brooklyn  
Painted green watermelon  
That guy's ride is good lookin', good lookin'  
He tells me that he loves me  
And even though I'm real sexy  
He loves his car, car, car  
He's always with his car, car, car

So, I rub that glitter and grease around  
Rub that glitter and grease around  
Rub that glitter and grease around, grease around

Rub that glitter and grease around  
Rub that glitter and grease around  
Rub that glitter and grease around, grease around

Start it, pump it, wash it, bump it  
Rub that glitter and grease, he loves it  
Me so grimy, make her shiny  
There's more glitter and grease behind it

New York on the weekend  
[ From: <http://www.metrolyrics.com/glitter-grease-lyrics-lady-gaga.html> ]

Ain't nothing without your woman  
That guy's girl is good lookin', good lookin'  
He'd buy me presents, baby  
But gas costs him a lot of money  
He loves his car, car, car  
He spends it on his car, car, car

So, I rub that glitter and grease around  
Rub that glitter and grease around  
Rub that glitter and grease around, grease around

Rub that glitter and grease around  
Rub that glitter and grease around  
Rub that glitter and grease around, grease around

Start it, pump it, wash it, bump it  
Rub that glitter and grease, he loves it  
Me so grimy, make her shiny  
There's more glitter and grease behind it

Start it, pump it, wash it, bump it  
Rub that glitter and grease, he loves it  
Me so grimy, make her shiny  
There's more glitter and grease behind it

Rub that glitter and grease around  
Rub that glitter and grease around  
Rub that glitter and grease around, grease around

Rub that glitter and grease around  
Rub that glitter and grease around  
Rub that glitter and grease around, grease around
