Another Man's Woman

Marcia Ball

I came to know the way
Your yearning eyes look at me
Oh darlin', I know what we feel is wrong
Our desire to be together baby
Makes it hard to leave each other alone'Cause I'm another, another man's woman
(Another)
And you're another, another woman's man
(Another)The way we feel 'bout each other, baby
Makes us do things some folks just don't understand
I live each few minutes I can spend with you
I just keep a-hangin' on to seein' you when I can'Cause I'm another, another man's woman
(Another)
And you're another, another woman's man
(Another)The way we feel 'bout each other
Makes us do things some folks just don't understand
I live each few minutes I can spend with you
I just keep hangin' on to seein' you when I can'Cause I'm another, another man's woman
(Another)
And you're another, another woman's man
(Another)I'm another, another man's woman
(Another)
And you're another, another woman's man
(Another)
