

Spinning

Grouplove

I hit the ground
yeah I came in running
Was coming up
when all the rain was pouring down You'd never know that I was always spinning
I turned the corner
and I passed right through the crowd Me I would never know
See I could never wait
Me I could never stop
my world from spinning
See I could never grow
Me I could never be
See I could never go
the walls keep falling Send?
Here I stand
I was broken
now I'm brave
