

# Falling Down

## 40 Below Summer

It's gonna bite today  
(Right)  
To open a can of pain  
(Wrong)  
Sun scorched and blistering  
(Run)  
Do you know that it's all  
(Gone)  
Kiss my eyes shut to bash it in  
It's just another payment  
To how we live, how we dream, how we breed  
Low rent up in the basement  
The sky conforms to the surface  
What's the purpose, everything is worthless  
I feel a crack in the structure  
It's time bleed through suffer  
And I fall into myself  
(And I fall myself, I fall)  
I fall, I fall, I fall  
Life keeps on pushing me under  
(I am)  
Ripping my whole world asunder  
(I can)  
Death is what keeps me in motion  
(Will I)  
Drown in this pain like an ocean  
I'm falling down again  
(Now)  
Into the ground again  
(Low)  
Don't tell me what to do when I take you  
And I'm gonna make you  
You had in a moment what the rest of us  
Need to believe isn't hopeless  
Take a look at the scoreboard it's 1 nothing them  
So I guess you need move more  
We'll make a crack in the sun  
If it feeds you the answer  
And I fall into myself

(And I fall myself, I fall)  
I fall, I fall, I fall  
Life keeps on pushing me under  
(I am)  
Ripping my whole world asunder  
(I can)  
Death is what keeps me in motion  
(Will I)  
Drown in this pain like an ocean  
All in my head but the waiting is over  
Your thoughts can't tread into my disclosure  
I'm just a face, nameless and silent  
I'm such a waste that's why  
And I can't erase I'm feeling all this  
And I cannot frame and hide behind this  
(Pain)  
I did it one more time for you  
And now I'm falling down again  
(Pain)  
I did it one more time for you  
And now I'm falling down  
(Pain)  
I did it one more time for you  
And now I'm falling down again  
(Pain)  
I did it one more time for you  
And now I'm falling down again  
Life keeps on pushing me under  
[Incomprehensible]Ripping my whole world asunder  
[Incomprehensible]Death is what keeps me in motion  
[Incomprehensible]Drown in this pain like an ocean, kill
