

# Tired Of Running

## We Have Band

I won't make the same mistake  
I won't make the same mistake  
Again There is no game  
There is no game  
That stuff to play When you get tired of running  
When you get tired of running  
When you get tired of running  
When you get tired of running  
When you get tired of running Miles and miles you came  
Searching is written down on your face  
You were hysterical. Go make a change of the history  
Go make a change of the history Now that both we love something  
Now that both we love something  
Now that both we love something  
Now that both we love something Miles and miles you came  
Searching is written down on your face  
You are hysterical.  
I asked you what was wrong  
You were hysterical. Can't change the way we make  
Nature will nurture you  
Honest all you worth  
Use it to free yourself Listen me...  
Listen me... Please stop me  
Is close...  
Our fantasy  
The way you arise  
All your history.  
Did you really think  
You've got this for free?  
You work, for, you work for Please stop me  
Is close...  
Our fantasy  
The way you arise  
All your history.  
Did you really think  
You've got this for free?  
You work, for, you work for Our history... Don't you me call... me  
Don't you me call... me  
Truth is we had it coming

Truth is we had it coming  
Truth is we had it coming  
Truth is we had it coming Miles and miles you came  
Searching is written down on your face  
You were hysterical. Can't change the way we feel  
Nature will nurture you  
Honest all you worth  
Use it to free yourself! Please stop me  
Is close...  
Our fantasy  
The way you arise  
All your history.  
Did you really think  
You've got this for free?  
You work, for, you work for Please stop me  
Is close...  
Our fantasy  
The way you arise  
All your history.  
Did you really think  
You've got this for free?  
You work, for, you work for Please stop me  
Is close...  
Our fantasy  
The way you arise  
All your history.  
Did you really think  
You've got this for free?  
You work, for, you work for Please stop me  
Is close...  
Our fantasy  
The way you arise  
All your history.  
Did you really think  
You've got this for free?  
You work, for, you work for Our history...(repeat)  
Your history (repeat)
