

# Always

## Abundant Life Church

When she said I'd love you like no other  
And she said our love would last forever  
I was young and didn't understand then  
What it was could beat inside of me  
And she believed in ever after  
In a world where all your dreams come true  
And if I had a chance I'd tell her a thousand times a day  
That I still need you I can hear you

Chorus:

Say you'll always love me  
And be the one to understand  
Take my life and never leave me  
And just remember that I'm always near you - always there  
We used to live and laugh about tomorrow  
Running out of precious time we borrow  
And there was you and love was all you wanted  
In your heart you'll find where we belong

And she was always there beside me  
Reaching out and holding me tonight  
If I had a chance I'd tell her a thousand times a day  
That I still need you I can hear you

Chorus

After love has come and gone  
You wonder what remains  
And you will you have the strength to let  
Your feelings show again  
It's never easy but I tell you  
A thousand times a day  
That I still need you I can hear you

Chorus(
