Amigo

David Ball

Where ever you go we go amigo
Been there through thick and thin
Down and out and back again
Where ever you go we go amigo
On the road that leads us to the setting sunSome people think you're just an old guitar
That may be true but that's not all you are
No matter where I go or what I do
I can always find a friend in youWhere ever you go we go amigo
Been there through thick and thin
Down and out and back again
Where ever you go we go amigo
On the road that leads us to the setting sunWe got into a mess in Abilene
She was the prettiest thing I'd ever seen
The song you played made her forget that night
That she was the sheriff's lonely wifeWhere ever you go we go amigo
Been there through thick and thin
Down and out and back again
Where ever you go we go amigo
On the road that leads us to the setting sunWell I think it's time to hit the road again
Let's see what's waiting 'round the bend
Saddle up old friend we're leaving town
Drifting with the clouds, bumming aroundWhere ever you go we go amigo
Been there through thick and thin
Down and out and back again
Where ever you go we go amigo
On the road that leads us to the setting sun
On the road that leads us to the setting sun
