Through Hell

We Are The Fallen

Are we alone?
Is there more than we believe in?
Haunting these walls
Shadows crawling out, revealing
Fear in me, Stays in me
The nightmares inside here
My dark fears
All in my head again
The nightmares I might hear
All my tears pull me through hell again
I wake in the night
And I pray that I've been dreaming
There's nowhere to hide
From this nightmare calling to me
Fear in me, Stays in me

The nightmares inside here
My dark fears
All in my head again
The nightmares I might hear
All my tears pull me through hell again
The nightmares inside here
My dark fears
All in my head again
The nightmares I might hear
All my tears pull me through hell again
The nightmares inside here
My dark fears
All in my head again
The nightmares I might hear
All my tears pull me through hell again
