

# Intro (In the Hearts Tonight)

Dawn Richard

(Verse)

Shadow of an army  
They never saw us in their paths  
Too busy eyes in the clouds  
Never gave a thought about you  
I know how you can hang your head so low  
When the lies are wearing you down  
What are you fighting for?  
I need you to come out of the dark(Verse)  
I really want to break you out  
Dont you know that you're so invincible?  
Dont you know you can be incredible?  
No way Im gonna let you lose(Interlude)

Cause this is our moment now  
Between this head and hands a hearts that fights  
Walks into the flames and dark tonight(Bridge)  
So get ready for war, yeah get ready for war  
Put your battle suit on, you's a champion  
We can never be touched, aint no stoppin' us  
Destiny written, and the stars above(Chorus)  
I can feel in the air and the hearts tonight  
Oh its tonight (in the hearts tonight)

(In the air)

Weve been waiting for this chance and now its ours tonight

Ours tonight, yea(Bridge)

So get ready for war, yeah get ready for war  
Put your battle suit on, you's a champion  
We can never be touched, aint no stoppin' us  
Destiny written, and the stars above(Chorus)

I can feel in the air and the hearts tonight  
Oh its tonight (in the hearts tonight)

(In the air)

Weve been waiting for this chance and now its ours tonight

Ours tonight, yea(Outro)

So get ready for war, be not afraid

Fall in line

So get ready for war

We gotta fight

So get ready for war

We gotta fight for our right to love  
So get ready for war  
We gotta fight oh  
Just war now  
So get ready for war  
So get  
So get ready for war  
So get ready for war  
So get ready yea  
So get ready for war  
Get ready for war
