N.A. Kicker

Superdrag

You could take your precious time, draining all my blood
If I ever make you mine, I wonder if I could
I could be a different trip nothing but a buzz
Yes I think I'm on the tip I told you what it doesI'm sure you've heard this one a million times before
You're the one I wanna adore and I can't shut it up anymore
I just hope it's not becoming a bore 'cuz I can't daydream anymoreSending you a Valentine every single day
You might say it's summertime a thousand miles away
It would be a Superdrag if you should pass me by
I could smoke a million bags you can get me highI'm sure you've heard this one a million times before
You're the one I wanna adore and I can't shut it up anymore
I just hope it's not becoming a bore 'cuz I can't daydream anymore
