

# Bonfire (feat. Alma)

[Felix Jaehn](#)

Words, I can hear the whispers about me  
About me  
Hurt, it hurts if I let all the poison in  
If I let them win When you're mad  
Make it rain you're trying to put my fire out  
You feel better now, yeah  
Spill your hate, bring your wisdom through it right into my flames  
I want you to know I am the bonfire  
You make me stronger, you make me light up  
With the shade you throw on me, throw on me I am the bonfire  
You make me stronger, I'm going higher  
I live off your gasoline, gasoline I am the bonfire  
I live off your gasoline, gasoline Breathe, now I close my eyes and I just breathe  
I just breathe  
It hurts, but shit that doesn't kill you makes you strong  
So bring it on When you're mad  
Make it rain you're trying to put my fire out  
You feel better now, yeah  
Spill your hate, bring your wisdom through it right into my flames  
I want you to know I am the bonfire  
You make me stronger, you make me light up  
With the shade you throw on me, throw on me I am the bonfire  
You make me stronger, I'm going higher  
I live off your gasoline, gasoline Run your mouth around my business  
So I can look like them other bitches  
Let them drinks yeah, that's my fitness  
Fuel to the fire, fuel to the fire  
Run your mouth, you can run your mouth  
Think your rain can put my fire out  
Spin your head you feel better now  
Fuel to the fire, fuel to the fire I am the bonfire  
You make me stronger, you make me light up  
With the shade you throw on me, throw on me I am the bonfire  
You make me stronger, I'm going higher  
I live off your gasoline, gasoline I am the bonfire  
I am the bonfire  
What up, what up I am the bonfire  
You make me stronger, I'm going higher

I live off your gasoline, gasoline
