They don't know about that , about that, about that, no oh noRoyce Da 5'9I'm on my detroit state of mind
Made to survive, built to destroy, blaze with da 9
Waving goodbye
Guess Im just a reckless detroit, I grease bullets with all my canadian g's who will pull it
I call em my edmonton oilers, Im about that, Like that life that you ran
Like your last day your last breath could land right inside your ashtray

Yall niggas sleeping you narcoleptic
The difference between us you bough a car im a car collector
I put the law on all of my offenders
I put the I in i will you end you
I'm flying wondering which one is flyer, the chick I'm riding with
Or the tires on the new carbon fibre fender
I got a gauge, who busting its nothing
I drag the whole united states threw customs
Pinnacle touch it, criminal fuck itChorusCause they don't know i got that thing on my side

change direction
I learned hard times only breed perfection
When in ur town Ur braud pleads affection
If that's a problem U might need police protection
See half of what u need is connection
Have drive take advice head correction
Never have regrets B happy with my reflection wanna find me
Ib in the rhythm & blues section 8
Next to the dudes that never lose
Everything Strategize only make clever moves
Might as well quit if I can't improve
Its the life that I chose arms now full of tattoos 12

I no longer live with regrets
Getting high in my sweats I don't care who it's upsets
Life in fastlane all I see is silhouettes
Where im at mans as Good as it getsChorusCause they don't know i got that thing on my side
Ride to the death go all the way like
To my last Breath Dog way to fly
Anywhere i step Im Made to survive
Never have regrets they don't know about that, about that, about that , no oh oh oh
They don't know about that , about that, about that, no o
