

Phantom Lord ("Live" at the Automatt)

Metallica

Sound is ripping through your ears
The deafening sound of metal nears
Your body's waiting for his whips
The taste of leather on your lips
Hear the cry of war, louder than before
With his sword in hand to control the land
Crushing metal strikes on this frightening night
Fall onto your knees for the Phantom Lord
Victims falling under chains
You hear them crying dying pains
Fists of terror's breaking through
Now there's nothing you can do
Hear the cry of war, louder than before
With his sword in hand to control the land
Crushing metal strikes on this frightening night
Fall onto your knees for the Phantom Lord
The leather armies have prevailed
The Phantom Lord has never failed
Smoke is lifting from the ground
The rising volume, metal sound
Hear the cry of war, louder than before
With his sword in hand to control the land
Crushing metal strikes on this frightening night
Fall onto your knees for the Phantom Lord
Fall to your knees
And bow to the Phantom Lord
