

# Looking

## Art Department

My frustration won't subside, I've been trying time after time  
But it's not my style to quit there is more to life than this  
In obscurity or fame we're all playing in this game  
Searching for something, searching for something, yeah Looking, looking, looking, you will find, find, you will  
be fine  
Looking, looking Saturday in the morning and the rain keep falling  
Brother didn't get no sleep, now he's really feeling beat  
But there is no time to waste as the devil test his faith  
He just walks away on a mission to complete Looking, looking, looking, you will find, find, you will be fine  
Looking, oh, find, you will be fine She has her hand on her jaw as she wonders away  
What will tomorrow bring, will her dreams just disappear  
She find words are hard to say so she prays everyday  
She must find a way, may the pieces fall into place, yeah, yeah Frustration won't subside, I've been trying time  
after time  
But it's not my style to quit there is more to life than this  
In obscurity or fame, we're all playing in this game  
Searching for something, searching for something, yeah Looking, looking, looking, you will find, find, you will  
be fine  
Looking, looking, looking, you will find, find, you will be fine Searching for something, looking for something  
Searching for something  
Find, your will be fine, find, you will be fine  
Searching for something, find, you will be fine
