# Always There

## Slick Shoes

How do you know
What I look for
So long
And all that time when I tried to find
Was wrong
You're always there
Every single time
Even when I'm not with you
But When I come around
It won't take long
To find my way to your embrace
You see in me
What I could be
I try
Should it be so hard for me to love?
Completely
[Chorus]
I never took the time
To see you in my life
Would there be less pain and loss?
Hoping that my eyes can help me see
I think that you would let in front of me
