

# Ryder On the Storm

Megan Joy

I wanna kiss you all day long  
I wanna hold you in my arms so long  
When life takes me far away  
Just close your eyes cause it's okay When I'm away I'm not quite right  
Know that I'm with you in my mind  
Soon I'll be home, my little Ryder on the storm I know that you don't understand  
One day you will become a man When I'm away I'm not quite right  
Know that I'm with you in my mind  
Soon I'll be home, my little Ryder on the storm Wish I could keep you in my pocket  
You know you're not alone  
We'll take a trip inside your rocket  
The next time I am home, my little Ryder on the storm When I'm away I'm not quite right  
Know that I'm with you in my mind  
Soon I'll be home  
My little Ryder on the storm  
My little Ryder on the storm I wanna kiss you all day long
