

# Big Man

## State Radio

(album version)

Doctor, what can I do?  
My hayfever's not breakin'  
Take two of the green and four of the blue  
But don't call me in the morning

We are overtired  
And we are where you're from  
And we have occupied  
May we explain

That who's so highest burn the brightest  
But I'm still staring  
Yes I'm still staring  
Who's so highest burn the brightest  
But I'm still staring  
Yes I'm still staring  
Yes I'm still staring...  
'Cause he's a big man!  
He's going out to hide away  
Oh, he's such a big man  
Oh, going out to hide away

They cannot help themselves  
Chose Icarus to Solomon  
Mirror, mirror on the wall  
Street look straight to Washington  
And they were gettin' away with murder  
But murder's gettin' away  
Tell the van to set himself on fire  
Set fire to the day

And, who's so highest burn the brightest  
But I'm still staring  
Yes I'm still staring  
Who's so highest burn the brightest  
But I'm still staring  
Yes I'm still staring  
Yes I'm still staring...

'Cause he's a big man!

Oh, he's such a big man  
Yeah!

Someone's gotta take the fall!  
Someone's gotta take the fall...  
Someone's gotta take the fall!  
'Cause the devil gonna dance 'til the music stop  
Oh, the devil's gonna dance 'til the music stop  
Oh, the devil gonna dance 'til the music

(English kid) "the law (?) looks at the hapless ferron (?) who steals the goose from off the common (?), but lets the greater ferron loose who steals the common from the goose (this section is a bit unclear)

Someone's gotta take the fall!  
Someone's gotta take the fall  
Someone's gotta take the fall!  
'Cause the devil gonna dance 'til the music stop  
Oh, the devil gonna dance 'til the music stop  
Oh, the devil gonna dance 'til the music...
