Tribulation

Possessed

Can you hesr the thunder? Can you hesr the sound? Can you hesr the nightmares? Can you hesr the ground? You can feel the sorrow And you can feel the pain Know there's no tomorrow You'll never love againSkies are filled with blood The sun no longer rises But no one understoodThe final tribulation The heavens take their fall Experience hell's sensation Satan standing tallWar between the powers Fury in the skies Heaven fight the dragon With evil in its eyesTrubulation In love with Satan Desecration Come to SalemNowhere to run & nowhere to hide The power of darkness is waiting in side As the heaven fall down Hell will survive
