

Making You Up (feat. Peter Godwin)

MetrÃ´

Walking across a room
You move into the spotlight
Positions you assume
You havenâ€™t got it quite right
but the dreams will come true
Well, baby, theyâ€™ll live for you
and my time will come too
Making you live for me

Making you up -
I am making you up
They are making it out
to be something impossible

Watching you come to life
I watch you making magic
Behind another mask
This time it wonâ€™t be tragic
and Iâ€™m working on you
Well, baby, you work on me
in the dark of your soul
creating mystery

Making you up -
I am making you up
They are making it out
to be something impossible

Well, tighten your dress, baby
wear your hair in a mess
put your make-up on heavy
Weâ€™re creating heaven
Weâ€™re creating heaven
Weâ€™re creating heaven
heaven or hell

Moving across a screen
another fascination
I donâ€™t know what it means
Itâ€™s just imagination

and Iâ€™m working on you
Well, baby, you work on me
in the dark of your soul
creating mystery

Making you up -
I am making you up
They are making it out
to be something impossible
Iâ€™m making you up
