Butterfly Wings

Owl City

If I was a raindrop
Would you be my thunder storm?
It's cold so surround me
With rain clouds to keep me warm
I feel like I'm falling
So darling, don't let me go
The thought is appalling
But should I slip away
Into the stormy sea will you remember me?
Asleep in our warm cocoons
We dream of lovely things
We're both gonna wake up soon
So we hope that tomorrow brings
Us our butterfly wings
If I was a grain of sand
Would you be Miami Beach?
So dusty with starlight
Close your eyes and cuddle close to me
I'll try not to wake you
Or make a sound while you're dozing off
But in the night should the high tide
Sweep me away from you
Tell me again, my dear, will you be waiting here?
Whenever we leave the ground
And take to the sky
I'll smile as I'm gazing down
'Cause I've always wondered why
We won't need feathers to fly
