

Saved In a Bottle

The Potbelleez

All of our days are never enough
You said that to me as we were taking off
Off the ground, travelling lights
We dream a dream and it comes to life

I want this time saved in a bottle
I want this time saved in a bottle
I want this time saved in a bottle
I want this time saved in a bottle

A hundred billion
Moments that elude us
But this one is the greatest
It's saved in a bottle

I want this time saved in a bottle
I want this time saved in a bottle

And I want more
Than simply to remember
The secret smell of summer
It's saved in a bottle

Saved in a bottle
Saved in a bottle
Saved in a bottle

I'll keep this time
Saved in a bottle
