Confuzed

Skylar Wolf

Confused by Skylar Wolf

Well it's okay when you talk

There is still a place for you in my heart

But every time you walk away

I'm afraid you won't turn back someday

But I wash the tears right from my eyes

for I know I'm with you to stay awhile

Now I'm so confused all I see is you in this thing I do

Now I'm so confused all I see is you in this thing I do

Please look at me when you talk

Can't you see my eyes are holding your heart

with every work I say is twice as long

you always hate it

wash these tears from my eyes

For I know I'm with you to stay awhile

Am I so confused for all I see is you in everything I do

Am I so confused for all I see is you in everything I do

Now I'm so confused all I see is you in everything I do

Oh baby please don't cry it already hurts to much

the stars up high

I know I can change I try

but oh girl I just need a little more time

If you wipe these tears right from my eyes

for I know I can convince you to stay a while

Now I'm so confused all I see is you in this thing I do

Now I'm so confused all I see is you in this thing I do

Now I'm so confused all I see is you in this thing I do

Now I'm so confused all I see is you in this thing I do
