

# Day Off

## Timati

I see the morning sun from my window  
Not a cloud for a mile or two  
Wearing out my slippers when I walk  
But that's what I'm supposed to do  
What is the purpose  
What am I doing here  
When I ought to be at work  
I'm going round and round in circles all day  
Can't stop thinking about where it hurts Look ahead  
Is this what I wanna do for the rest of my life?  
Well that's not right  
Look ahead  
Does it mean that I'm afraid to give it a try  
Yeah just a try I'm taking a sick leave  
Forgot to make the call  
Just let them know that this is too hard  
I can't figure out what I'm gonna say  
Cause telling them a lie when I'm in bed anyway  
A little scared as I dial the phone  
Saying that the fever has got into my bone  
I'm sweating like a pig when you return my call  
Now get well soon, take the day off Look ahead  
Is this what I wanna do for the rest of my life?  
Well that's not right  
Look ahead  
Does it mean I'm afraid to give it a try  
Yeah just a try  
(day off, day off...) Keeping a straight face, trying to seem real  
Enjoying myself, well here's the deal  
I'm never ever going back there again  
No no, m-mm, no way at all  
I'm never ever going back there again  
I gotta be honest with myself  
Yeah, I gotta be honest with myself Look ahead  
Is this what I wanna do for the rest of my life?  
Well that's not right  
Look ahead  
Does it mean I'm afraid to give it a try  
Yeah just a try
