

# Eternally

## The Twilighters

If I could ask you things unspoken  
Give to you all my honesty  
If I could show you any token  
Of the love welling up in me  
I'd let you see what you mean to me  
If you could hear me, I'd sing love songs  
As you drift gently into sleep  
If you could see me, I'd blow you kisses  
Let them cross the ocean blue and deep  
I wish you could see, what you mean to me

Eternally

When I had the chance  
To share with you my days  
All those precious tender moments  
Well, I let them slip away  
If I could touch you for a lifetime  
You would know that I would love you true  
Eternally, eternally, eternally  
If I had one wish that could be answered  
I'd undo all that I have done  
I know, I took it all for granted  
Thought I'd have you for all my days to come  
Here with me eternally, eternally
