

Free Like The Wind

Alyson Avenue

He fights hard, will he reach his aim
He'll survive for his friends
He is like a crying wolf tonight
He's the winner in the end
He is proud and he'll take his chance
He is fighting for his last friends
But his freedom
Oh, it's not for free
But he feels, he will
SurviveHe is free, free like the wind
He is free and he will win
Cause he's fighting
For the honor
To be free
He is free, free like the wind
He is free and he will win
Cause his heart is brave
He's fighting for his life, oh noHe had it all
What they took away
Sometimes proud and sometimes sad
But he's fighting for a better life
What you give is what you get
He can make it
If he really tries
Take the chains, throw them away
He has the power and he don't
Give up
Feeling stronger every dayHe free, free like the wind
He is free and he will win
Cause he's fighting for the honor
To be free
He is free, free like the wind
He is free and he will win
Cause his heart is brave
He is fighting for his life, for his life
