

# Can I Come Over Tonight

[Jordan Knight](#)

You are the kind of woman Only found in dreams He is the kind of man Who leaves your heart to bleed Let me wipe your tears And make you feel like you can love again Protect your fears Baby I'm here waiting for you to call me in Can I come over tonight Can I come over tonight Can I come over tonight (baby) Can I come over tonight Can I come over And what can I do To make it alright for you Can I come over Tonight, can I come over tonight And he could not have treated you worse I saw you with him Like he was ashamed To be holding a goddess of the earth I'd spend my time If you were mine I'd dedicate so you could love again (Can I come over tonight) Baby I'm here waiting for you to call me in (Can I come over tonight) Let me come over (Can I come over tonight ) Girl I wanna show you what love's about (Can I come over tonight) (Can I come over) Is there anything I can do (what can I do) To make it alright for you tonight tonight (to make it alright) Can I can I Baby baby (Can I come over) Girl your man ain't nothing if your man ain't me Girl I swear I'll be there for your every need You know he don't treat you right (Can I come over tonight) (Can I come over tonight) Tonight You bet I'll come over tonight (Can I come over tonight) (Can I come over tonight) Oh yeah yeah (Can I come over tonight ) Baby all you do is right Let me be with you tonight (Can I come over tonight) You know he don't treat you right (Can I come over) To make it alright for you What d'you want me to do To make it alright tonight tonight (Can I come over tonight) Can I can I tonight (Can I come over) (To make it alright tonight) (What can I do )
