

I Think Bad Thoughts

Danko Jones

I'll admit it, I've done a few things that I shouldn't be proud of
I got no remorse, no regrets, never happy endings on this dark sense
And if you wanna get down, I can go down as low as you wanna get
I wouldn't try to push me, it will only leave you with regret
Don't test me!

Ref:

I can rip you off and steal all your cash. Sucker-punch you in the face, stand back and laugh.
Leave you stranded as fast as a heart-attack. All day I think bad thoughts!
I can break your heart at the drop of a hat. Stab you in the back in two minutes flat,
Screw your girl in the back of my Cadillac.
I think bad thoughts!

Take this to the street, finish it, flush it down the toilet like you're taking a piss.
It should be good to see, for a change just a day how the other half lives
And when I take you out I'll stare you down, make sure you're getting nervous
You won't understand, that's how it is as a knight in Satan's service.

I can rip you off and steal all your cash. Sucker-punch you in the face, stand back and laugh.
Leave you stranded as fast as a heart-attack. All day I think bad thoughts!
I can break your heart at the drop of a hat. Stab you in the back in two minutes flat,
Screw your girl in the back of my Cadillac.
I think bad thoughts!
I think bad thoughts, all day and all night long! I think bad thoughts!
Don't care what you thinks? wrong!

If you wanna judge my lifestyle, I'd love see how you live.
Feel free to cast your stones. Don't cry when you're down bleeding

In a heartbeat I turn you white as a sheet, begging for mercy on your goddamn knees
It'll be hard to keep from laughing, watching you cry will make my week
Just test me, please test me! Push a button, pull a lever, trick or treat!
Im asking: Do you have the stuff to find out if I can fuck you up?

I can rip you off and steal all your cash. Sucker-punch you in the face, stand back and laugh.
Leave you stranded as fast as a heart-attack.
I think bad thoughts, all day and all night long! I think bad thoughts!
Don't care what you thinks? wrong!

I can tell them lies 'till you're left in disgrace, kick you when you're down and spit in your face

Lead you on `till you`re lost without a trace.

I think bad thoughts, all day and all night long! I think bad thoughts!

Don?t care what you think`s wrong!

I can break your heart at the drop of a hat. Stab you in the back and doing a slap

Screw your girl in the back of my Cadillac.

I think bad thoughts!
