

# Second Chances

George Strait

Man, don't you know this woman you want and crave  
Is the queen of my kingdom?  
When she walks through the garden  
Roses drop petals to cushion the foot steps she takes  
I know she once loved you and I know you still love her  
But you carelessly asked for your freedom  
I can see how it hurts you but it's too late  
You made your mistakes  
Man, you know second chances these days  
Are so hard to come by  
I love that lady so you best forget  
Ever gettin' her back 'cause she's mine  
Man, you know I had somebody else once  
And she just gave me one try  
And second chances these days  
Are so hard to come by  
Man, you know second chances these days  
Are so hard to come by  
I love that lady so you best forget  
Ever gettin' her back 'cause she's mine  
Man, you know I had somebody else once  
She just gave me one try  
And second chances these days  
Are so hard to come by  
And second chances these days  
Are so hard to come by
