

Kiss of Life

Gene Loves Jezebel

Why can't I be like you? You're flying as high as a kite
Never knowing what you do it for
When you are young, no one tells you anything
They just hope you don't make
The same mistakes and become just like them Oh, I would wait a thousand years
I'd roll a thousand stars
I'd wait until the sun eclipsed the moon
And I would give the kiss of life
If only you would say
Oh, come live with me and love me
And I will surely stay, I will stay Why can't I be like you? You're always so wrong but so right
Never knowing what you'd do it for
'Cause you're young, no one tells you anything
I just hope you don't make
The same mistakes and become just like them Oh, I would wait a thousand years
I'd roll a thousand stars
I'd wait until the sun eclipsed the moon
And I would give the kiss of life
If only you would stay
Oh, come to me and love me
And I would surely stay, I know you'd stay
