

# To Bid You Farewell

## Opeth

I am awaiting the sunrise  
Gazing modestly through the coldest morning  
Once it came you lied  
Embracing us over autumn's proud tree tops I stand motionless  
In a parade of falling rain  
Your voice I cannot hear  
As I am falling again Devotion eludes  
And in sadness I lumber  
In my own ashes  
I am standing without a soul She wept and whispered, "I know" We walked into the night  
Am I to bid you farewell?  
Why can't you see that I try  
When every tear I shed, is for you?
