

Study Humans

[Mxpx](#)

Everyday I go to school and study humans
I sit and watch them all go by
Everyday's a new day to study humans
I sit and observe this girl named Bri with my eye
All those mannerisms and the funny things they do
Humans and their dogmas, they defend so selfishly
I'm planning to take over 'cause I hate living on the moon
They won't get suspicious 'cause the soaps are on at noon
