

Love Should (feat. Laura Dawn)

Moby

So we in sleep in beds
We've never made
Holding close to love
When love should fade
Holding on to this is the best thing we'll ever do
Morning sun is sweet and soft on your eyes
Oh my love, you always leave me surprised
Before my heart starts to burst
With all my love for you
And though how it rains
And though how it pours
I never could feel this way
For anyone but you
And though how it rains
And though how it pours
I never could feel this way
For anyone but you
So it takes some time
And slip away
Holding on to love
When love should stay
Holding on to you is the best thing I'll ever do
Evening sun is sweet and soft in your face
So I'll never ever leave this place
I feel my heart start to burst
With all my love for you
And though how it rains
And though how it pours
I never could feel this way
For anyone but you
And though how it rains
And though how it pours
I never could feel this way
For anyone but you
