

All Hopes in Vain

[Alise Joste](#)

my poor brother told me we would suffer
and no matter how hard we would try
we would never really get to see what's right and many years later
within the brightest light
we'll both stand in the garden and everything else will be lost
but god knows we tried we will walk as long as it will take for us to reach home and I know I said I would
but I could not
