Bewildered

Vortech

Bewildered, lost in a dream
In the love I need, why did we part?
Bewildered, has love, has love died dear?
Wishing your heart could feel what's in my heart
Must I have sleepless night
And endless days?
Oh love, why did you keep my soul?
Without a spark I'm in the dark
Bewildered, I need your
I need your, I need your guiding hand
I'll never, no, I'll never understand
How you can love me, how you can love me
How you can love me, how you can love me
How you can love me and leave me
Bewildered, bewildered
