

Always and Forever (Bff) [Remix Groovacious Mix]

Raze

The stars will shine
The moon will glow
The sun will rise
The grass will grow
Some things will never change
Just like me and you
Mountains high and valleys low
I have got to let you know
That I am here for you
Whatever you go through Troubles come and get you down
I'll always be around to say I will be here always and forever
I'll be here for you
We will be friends - strong
Forever and ever As far back as I can remember
Thirty-one days in the month of December
Life will still go on
But it's just not the same
Miles and miles and miles are between us
Like Earth to Mars and then on to Venus
Although you have gone away
I still see your face And these memories linger on inside our
Hearts always I will be here always and forever
I'll be here for you
We will be friends - strong
Forever and ever I will be here always and forever
I'll be here for you
We will be friends - strong
Forever and ever Oh Lord, You've answered my prayers
You sent me my best friend Oh Lord, You've answered my prayers
You sent me my best friend I will be here always and forever
I'll be here for you
We will be friends - strong
Forever and ever I will be here always and forever
I'll be here for you
We will be friends - strong
Forever and ever
