

Skittles And Combos

Relient K

this is a little song, bout the uh, bout the two loves in my lifeSo this is how the story goes.

Just want everybody to know.

We love Skittles and Combos.

So bring some to our next show.From our head down to our toes.

We love Skittles and Combos.

So if you want to see our faces glow

Just bring some to our next show.Deny us combos

Refuse us Skittles.

I admit those words hurt a little

But we know it'll be okay

if you just let some our way.
