

# In the Meadow (Demo)

## All About Eve

Girl in a uniform  
Grey and white and crisp, clean  
How can I live in your world  
Of strawberry flowers  
And colorful hours  
Lovingly I dust all the dust on your shelf  
Kiss the mirror clean  
Where you glance at yourself  
I know what to do  
Maybe a letter I'll send  
From underground and wait to be found out  
Lovingly I press out the ink on the page  
Carefully I'd scent it  
In stock from the meadowIt is dark, in the meadowI spill it all as I pour  
Red wine will stain, remember  
There's none for the little girl blue  
Who lives down the stairs  
And loves like the stars  
But I must not forget  
That I am what I am  
And you must not forget  
That you are who you areIt is dark, in the meadow
