

Unlock the Chains

Shamel Shiloh

It's like bl-owww! Back on the scene with the son
Peace to cool brother like my Christawn " ill one
Be humble let God fight your rumbles
Aint no needs for nines grab your sword in this jungle
Rhymes incline 12 time exploding mines
Draw the line these righteous thought will leave impressions in your mind
In the darkness men have made bad decisions
Making money the god and making business their religion
Any story sound true until you hear the other side
Dark foolish minds deliberately choose lies
And any kind of sin they down with the wickedness
Greed, hate, murder, fighting, lying and all that bitterness
So who is this activist in the world of darkness?
Always disobedient son you can spark this
(I have a) powerful method for those who believe
(even) crack heads, dope feens, weed smokers, and thieves

Unlike the futile child who never seen "ith
Be out for the crowns and the point of the zenith
Surrender your lives aint no time for playing games
The heathen will burn its time to unlock the chains

Who you hanging with matter fact who you dating
I hope it aint a friend of sin clubbing with satan
That's degrading an evil diabolical plan
The natural of his inclination is the souls of man
Original procedures bound to hit you in your dome piece
Ways of ancient Greece Elohim conquers beast
Stupidness cease these fresh rhymes are like feel-able
Your pain is healable breaks it down like mad syllables
Believers rise Christians in the air
Universally down with God in this spiritual warfare
Strong in the Lord power and his might
Blessed with insight sacred divine is what I write
The outcome is not based on soul or strength
El Shaddai covers all every length and width
The All Mighty is the antidote check what wrote
Courageous at heart laying it down for my folks

Unlike the futile child who never seen
Be out for the crowns and the point of the zenith
Surrender your lives aint no time for playing games
The heathen will burn its time to unlock the chains
