

I Know

Michelle Williams

Hey little lady why you walkin' with your head hung low
There's gotta be an answer to whatever you don't know
Got little man in the stroller lookin' up at you
Don't understand but he knows his mama's sad why you
Runnin' away when your problems gonna find you
Dry your eye's and take the time to pray
'Cause I know what you're going through
Don't let it get the best of you
Everybody goes through things
Don't worry it will be okay
I know what you're going through
Don't let it get the best of you
Everybody goes through change
And made it through yesterday
Whatever happened to living in a world of peace and equality
One in the same yet we killin' one another for grief and jealousy
We got 300 million men and women out there who love someone
Epidemic's got our nations dying young
You better be ready when he comes
'Cause I know what you're going through
Don't let it get the best of you
Everybody goes through things
Don't worry it will be okay

I know what you're going through
Don't let it get the best of you
Everybody goes through change
And made it through yesterday
And don't you let it break you down
Don't you let it steal your joy
I know it's gonna be alright, yeah
Don't you let it keep on fighting, oh
As long as you keep him first don't worry
The pain that you're going through
Is just for a little while
Hold on, hold on, hold on
Don't let the situation steal your joy
Keep your head up, keep your faith, say yeah
'Cause I know what you're going through

Don't let it get the best of you
Everybody goes through change
Don't worry it will be okay
I know what you're going through
Don't let it get the best of you
Everybody goes through change
And made it through yesterday
