

# House of Seven Swords

[Vanessa Carlton](#)

Strength and devotion come without warning  
You know when you know what to do  
No simple scheming, you should be sleeping  
Sometimes you just can't think it through And that's the way it is, love  
Go whichever way you need to go  
Nobody can tell you how to build  
Your house of seven swords That's the way it is, love  
Together and yet still we're on our own  
Nobody can tell us how to build  
Our house of seven swords Shamen won't tell you  
The preacher will try to  
You could take your time  
Take a trip Let your eyes see hidden things  
Your heart beat like a drum  
Your eyes see hidden things  
Your heart beat like a drum 'Cause that's the way it is, love  
Go whichever way you need to go  
Nobody can tell you how to build  
Our house of seven swords That's the way it is, love  
Together and yet still we're on our own  
Nobody can tell us how to build  
Our house of seven swords Oo, oo, oo... ah That's the way it is, love  
That's the way it is, love  
Your house of seven swords That's the way it is, love  
Together and yet still we're on our own  
Nobody can tell us how to build  
Our house of seven swords
