

# When We Were Young

## Whipping Boy

Do you remember?

Back when, we fell in love in your best friends basement

Spun the bottle and hoped it would land on you

Thought we were cool, listening to Zeppelin

Making out on the stairway to heaven

Nowhere to go, so we slept out on the roof

But now, we hardly even speak, at all

Looking back, how did we get away?

I never thought that we'd surrender

When i was yours and you were mine

Never regret, no, we learned how to love

When we were young

When we were young

Snuck out in your daddy's ride

at the drive in, makking love for the first time

Forget thhe silver screen, it's a wonderful life

But now, we hardly even speak, at all

Looking back, how did we get away?

I never thought that we'd surrender

When i was yours and you were mine

Never regret, no, we learned how to love

When we were young and still together

No, there was nothing left to prove

Never regret no, we learned how to love

When we were young and reckless

Dumb and fearless

Fighting in the streets

Will you remember me?

Young forever, back then

Never knew the first love's the hardest

I never thought that we'd surrender

When i was yours and you were mine

Never regret, no, we learned how to love

When we were young and still together

No, there was othing left to prove

Never regret, no we learned how to love

When we were young

When we were young.

When we were young.  
When we were young.
