

# Punked

## Rupee

All the lies that you told  
On the promises made  
How could you be so bold  
Now I feel so played  
It was love and not lust  
I really felt you  
I gave you my trust  
Now look what you do I should have noticed something  
Those calls and late night creepin  
Those moans that you were fakin  
You punked me, you punked me  
Those two ways you deleted  
Recent numbers repeated  
E-mails you claim forwarded  
You punked me, you punked me Punked  
Though people warned me about her  
Punked  
I put her name on my visa  
Punked  
And now my credits going under  
You punked me, you punked me  
Punked  
Hell yeah I said it was okay  
Punked  
And co-signed on the escalade  
Now I'm taking the subway  
You punked me  
You punked me Now that I got punked up  
It's about the prenup  
The only fifty round me  
Is a g-unit cd  
So my bredren be warned  
Or you'll be a punk scorned  
You may think your games tight  
But where's your woman tonight I should have noticed something  
Those calls and late night creepin  
Those moans that you were fakin  
You punked me, you punked me  
Those two ways you deleted

Recent numbers repeated

You punked me  
You punked me
